theUltimate**Printer**Shootout

In the tradition of COMDDAP Shootouts comes the latest showdown of pixel proportions!

This year, train your sights on the best quality inkjet printers at the COMDDAP Expo 2009 Printer Shootout. Get up close and personal as the most popular printer brands face off in a showdown of printing prowess. Participating printers will be asked to submit 8.5"x11" size photographic printouts for display onsite, 3 prints per brand/model. Visitors will be accommodated to print photo files onsite for better appreciation of print quality.

Everyone is welcome to subject each printout to intense scrutiny. Do they look as good as the prints from your favorite photo lab? Who will win the battle of the pixels? You decide!
